

GATEKEEPER
BUSINESS SOLUTIONS, INC.

May 2010 Software Update

Additions:

Payroll:

1. Added a new reason for resubmitting the MA Suta export file that was required in the export.
2. Added specifications and settings pertaining to the H.I.R.E. Act.

Changes:

Payroll:

1. Adjusted Local Tax screen for address information so that now a prompt will ask the user if they want to add this address information to all companies or just the one they are currently working in.
2. Adjusted Tip Pools when the refresh button was pressed on the Calculate Tip Allocations screen so the software is not shut down when there were no tip pools set up.
3. Adjusted the Switch Credit/Debit function so that totals are calculated correctly.
4. Adjusted database records that are voids to be the same as voided runs but negative.
5. Adjusted the Days Delay field on the Company Paychecks tab so that it is no longer displayed for clients using Paygroups.

Taxes:

1. Adjusted Tax Pay tab on the Company Edit screen so that the information updates when changing from one company to another.
2. Adjusted where the frequency for Local Tax due dates is populated from.
3. Adjusted Tax Pay tab on the Company Edit screen so that the correct address information is populated or the state that you are setting up rather than pulling from a Misc. Tax for the same state.
4. Adjusted 941 PDF export for 2010 changing some field names and combining date and telephone number fields into single fields. Also, line 7d was moved to the right as a total column.
5. Adjusted MA Suta export where an extra linefeed was causing blank records and Fringe Benefits and 3rd Party Sick Pay were displayed in the report but not on the export.
6. Adjusted FL Suta Mag Media export to match file specifications for 2010.
7. Adjusted how amounts were calculated from the times table so that the Suta report for NJ is faster for clients with a large number of employees.
8. Adjusted Suta report to correct the monthly employee count when ran by Branch Digits.
9. Adjusted GA W2 Mag Media to be exported as a .csv file format.
10. Adjusted the progress bar screen to open and display correctly where it showed a blank progress bar before.

Time & Attendance:

1. Adjusted Request Off Calendar so that requests in the same day that are granted at different times are correctly added to the Times table.
